DETAILED ACTION

This application has been withdrawn to permit reopening of prosecution, because the application contains at least one claim that is unpatentable.

The examiner, therefore, has applied a new grounds of rejection to the following claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 23-25 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by U. S. Patent No. 6,216,227 to Goldstein et al.

.As per claims 23 and 24, Goldstein et al. discloses the limitations of this claim (see at least fig. 5).

As per claim 25, Goldstein et al discloses first encryption means.....,
and first decryption means....., (col 8, lines 36-66).

Allowable Subject Matter

Claims 18-20, 49-62 are allowed.

Claims 26-48 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
